

Once again, this summer, we, EDA-ACALETICS, are happy to offer **free** web-based math flashcards to help students improve their **computational fluency** during the summer. As you know, strengthening **computational fluency** is one of the main focuses of the state and national math standards. Encouraging your students to use these flashcards will most definitely **accelerate** your math instruction for the upcoming school year.

Please go to: [www.acaletics.com](http://www.acaletics.com), click on **Flashcards** at the top right of the home page, then click the desired set.

The Flashcard Concepts are:

- 1) Basic Addition Facts (includes doubles)
- 2) Basic Subtraction Facts
- 3) Regrouping Addition Facts
- 4) Regrouping Subtraction Facts
- 5) Multiplication Facts (includes squares)
- 6) Division Facts
- 7) Fraction to Percent

Please share these **free** web-based math flashcards with schools, administrators, teachers, students, and parents.

Enjoy.
